RE: East Walnut Hills Community Budget Request

Dear City Planning Staff:

My name is Ryan Crane and I am the Chair of the Pedestrian Safety and Infrastructure Committee for The East Walnut Hills Assembly, Inc., which is the community council for the East Walnut Hills neighborhood. At the monthly meeting of the membership of the Assembly on Wednesday, October 2, we presented the following project for submission to the Community Budget Request process:

“The East Walnut Hills Assembly requests the support of the Department of Transportation and Engineering for conceptual design and pre-engineering work for additional improvements to East McMillan between Victory Parkway and Woodburn, especially in front of Saint Ursula Academy.

This area seems high volumes of commuter traffic and speeding, potentially due to the second eastbound travel lane. This area also sees a high degree of pedestrian foot traffic as the Saint Ursula campus incorporates both sides of the street, requiring students to cross East McMillan multiple times per day. In early September 2024, a student was struck in a marked crosswalk when a car ran a red light.

We request the DOTE evaluate this area for additional traffic calming and pedestrian safety improvements, including potentially bump outs/curb extensions or a raised crosswalk. The DOTE could even consider removal of the second eastbound travel lane or conversion of that lane into a dedicated school access right turn lane for Saint Ursula, if permissible within engineering regulations and standards of practice.”

Upon motion and second, the Membership of the East Walnut Hills Assembly voted to support this Community Budget Request.

We sincerely appreciate your consideration of this request.

Sincerely,

Jeff Butterbaugh

RE: East Walnut Hills Community Budget Request

Dear City Planning Staff:

My name is Ryan Crane and I am the Chair of the Pedestrian Safety and Infrastructure Committee for The East Walnut Hills Assembly, Inc., which is the community council for the East Walnut Hills neighborhood. At the monthly meeting of the membership of the Assembly on Wednesday, October 2, we presented the following project for submission to the Community Budget Request process:

“The East Walnut Hills Assembly requests support from the Department of Transportation and Engineering for conceptual design and pre-engineering work on a redesign of the Taft-Moorman intersection and consideration of other traffic calming measures on W.H. Taft Road from Columbia Parkway to the business district at Woodburn Avenue.

The Taft-Moorman intersection is of particular concern to our neighborhood, as residents report frequent collisions at this site resulting in property damage, along with speeding and other dangerous driving behaviors leading to risks to pedestrians. It is also very close to the Moorman Recreation Area “tot lot” utilized by neighborhood children, and the intersection, while having well-marked crosswalks, has no other meaningful traffic control intervention, such as an all-way stop.

Visibility at this intersection appears limited by the historic building at the northeast corner having been built to the sidewalk, impairing sight lines for drivers turning onto Taft from Moorman. Just over one month before our approval of this letter, there was an injury crash at this intersection on August 23, 2024, and given the concerns frequently reported to our Assembly by nearby residents, collisions at this location are likely to recur.

Additionally, there is generalized concern about speeding on William Howard Taft from Columbia Parkway heading towards our business district. This speeding predisposes collisions at the Moorman intersection to be more severe and potentially fatal to pedestrians. Taft in this section appears to have two striped westbound travel lanes, with the curb lane also used for parking. We request that the DOTE consider appropriate interventions to calm traffic along Taft, which may include:

- Consideration of large curb extensions or bump-outs at the Taft-Moorman intersection to increase pedestrian visibility, improve sightlines for turning drivers, and to calm traffic on Taft. This may include segmental removal of the curbside travel/parking lane approaching the intersection.
- Installing midblock “pinch points” or curb extensions in areas along Taft where the curb lane is not well utilized for parking. We understand that striping the parking lane may also reduce the tendency to speed
- Conceptual redesign of the Taft-McMillan intersection to make it more compact, including removal of the slip lane.
- Consideration of installing a raised intersection and all-way stop at the Taft-Moorman location, if consistent with engineering regulations and standards of practice

Addressing these concerns along W.H. Taft, and especially at its intersection with Moorman, would be consistent with the “Live” objective of Plan Cincinnati, as improving the walkability of our neighborhood, and the “Connect” objective to redesign roadways to safely accommodate all users, which in this case would be making the streets safer for pedestrians crossing at an uncontrolled crosswalk.”

Upon motion and second, the Membership of the East Walnut Hills Assembly voted to support this Community Budget Request.

We sincerely appreciate your consideration of this request.

Sincerely,

Jeff Butterbaugh

RE: East Walnut Hills Community Budget Request

Dear City Planning Staff:

My name is Ryan Crane and I am the Chair of the Pedestrian Safety and Infrastructure Committee for The East Walnut Hills Assembly, Inc., which is the community council for the East Walnut Hills neighborhood. At the monthly meeting of the membership of the Assembly on Wednesday, October 2, we presented the following project for submission to the Community Budget Request process:

“The East Walnut Hills Assembly requests support from the Department of Transportation and Engineering to conduct conceptual design and pre-engineering work for improvements to Victory Parkway north of East McMillan. This would be to the north of the current Eden Park Bridge and Victory Parkway Rehabilitation Project area. Specifically, we request evaluation of improved cycling infrastructure along this portion of Victory Parkway to connect to Wasson Way; improvements to the intersection of Victory Parkway and Madison Road; and consideration of right-sizing the road through a "road diet" or other appropriate improvement.

Improvements to cycling infrastructure on Victory Parkway are consistent with both the City's Bicycle network plan and Plan Cincinnati. The Bicycle Plan identifies this route as a Phase One implementation target, and improvements to the Victory - Madison intersection are also identified as Phase One improvements.

Victory Parkway in this section is potentially overbuilt, with room to “right-size” the roadway and to install high quality cycling infrastructure connecting both the East Walnut Hills and Walnut Hills business districts to Wasson Way. Evaluation of improvements to Victory Parkway would be consistent with the "Connect" objective within Plan Cincinnati, as a clear improvement

to the multi-modal transportation network in the City, improving options for non-automobile travel. It would also foster the goal of creating a more walkable city by offering a traffic calming intervention on Victory, consistent with the "Live" objective in Plan Cincinnati.

In evaluating Victory Parkway for improved cycling infrastructure, we request that the highest quality designs be considered, especially protected bike lanes. At the Victory - Madison intersection, we request that the DOTE consider removal of the slip lane from Victory to Madison Road, as this slip lane encourages unsafe driving behaviors heading into our business district at Woodburn. This intersection could be considered for a roundabout or other more efficient, compact design consistent with NACTO design principles, if technically feasible and appropriate with respect to other regulations and engineering standards of practice.”

Upon motion and second, the Membership of the East Walnut Hills Assembly voted to support this Community Budget Request.

We sincerely appreciate your consideration of this request.

Sincerely,

Jeff Butterbaugh
